

March 1, 2016

Mr. Scott Raines  
2300 Kanawha Boulevard, East  
Charleston, WV 25311

Dear Mr. Raines,

Thank you for the opportunity to continue our improvement work for Wirt County Schools with the School Building Authority. On Monday, February 29, 2016 the Wirt County Board of Education met in a Special Board meeting. In executive session, under number 9 of the exceptions, the board discussed the \$900,000.00 QZAB offer from the School Building Authority. We are excited about the possibility that the Executive Board of the Authority would include us in this opportunity.

Of course, we may still have questions and we are interested in ensuring that our current projects are successful within the bid cycle. Our next step in our CEFPP is the implementation of new and energy efficient utility consumption. Ideally, this includes lighting, heating/cooling, water, etc.

The Board of Education of Wirt County voted unanimously to request from the School Building Authority a QZAB for our energy efficiency and utility projects - Lighting and Bathroom Renovation.

Sincerely,

MaryJane Pope Albin  
Superintendent
